FUNDIT.FUN

Where DeFi Meets Social Crowdfunding

www.fundit.fun

Crowdfunding the $FUN Way: A DeFi-enabled Web3 crowdfunding platform, offering consumer-friendly crypto products and rewarding donors.

THE PROBLEM

Limited Accessibility

Traditional crowdfunding platforms are restricted by region & bank dependencies.

High Fees & Transparency Issues

Users face hefty charges and limited visibility into fund usage.

Weak Engagement & Rewards

Donors seldom receive ongoing incentives, and platform growth stagnates.

Lack Of DeFi Integration

Most crowdfunding solutions don’t incorporate yield-earning or community-driven governance.

THE SOLUTION

Borderless Crowdfunding

Anyone can launch or support campaigns using crypto, bypassing regional barriers.

DeFi-Powered Yield

Campaign funds can be secured and potentially leveraged in yield strategies, giving backers more utility for their contributions.

Incentivized Ecosystem

Our FUN Token rewards donors, creators, and community members, fostering sustained engagement.

Community Ownership

A DAO model empowers token holders to propose changes, stake tokens, and shape the project's future.

MARKET OPPORTUNITY

Crowdfunding

Projected to surpass $40B+* globally by 2033, driven by global connectivity and social finance trends.

DeFi Growth

Over $125B+ total value locked in DeFi, signaling a robust appetite for yield strategies and token-based governance.

Crypto Consumer Products

Soaring crypto user base demands frictionless, user-friendly solutions - fundit.fun combines DeFi with a socially impactful product.

PRODUCT & USER FLOW

Campaign Creation

Users set funding goals, deadlines, and potential DeFi yield strategies for contributed assets.

Donations & Rewards

Contributors donate in crypto (e.g.USDC, USDT, FUN, ETH, BNB), track campaign progress, and earn token rewards based on engagement.

DeFi Yield Integration

Platform automatically or optionally pools campaign funds into safe yield protocols, boosting potential returns.

FUN Token Ecosystem

1. Staking & Governance: Stake FUN to influence fees, protocol upgrades, and community-funded initiatives.
2. Consumer Crypto Products: e.g, frictionless conversions, simplified wallets, and user-friendly dashboards.

UNIQUE VALUE PROPOSITION

DeFi Meets Crowdfunding

We incorporate yield farming and liquidity strategies to maximize campaign impact.

Gamified Engagement

“Quests” and tiered rewards amplify user participation, virality, and platform stickiness.

Community-Centric DAO

Token holders propose and vote on roadmap features, ensuring alignment of interests.

Consumer-Friendly Onboarding

Streamlined user experience, bridging Web2 to Web3 with minimal technical friction.

REVENUE MODEL

Platform Fees

A small percentage from successful crowdfunding campaigns.

Yield Rewards

Potential revenue share from integrated DeFi yield strategies on pooled campaign funds.

Sponsored Quests & Hackathons

Brands pay for white-labeled or event-specific Quests, fueling prize pools and user acquisition.

Consumer Products

Additional fees or commissions from premium services (analytics, promotions e.t.c).

ROADMAP

Phase 1: MVP & Early Adoption

- Smart contract development & audits
- Basic campaign tools & minimal UI/UX
- Marketing push & brand alliances
- Live campaigns, Beta testing, feedback loops

Phase 2: Public Launch & Growth

- Initial community building & private token sale
- FUN Token launch on major DEXs
- Early DeFi yield integration
- Partnerships with yield protocols & payment gateways

ROADMAP

Phase 3: Hackathons & Consumer Crypto Products

- Global Web3 hackathons to encourage dApp integrations
- Launch advanced consumer tools (one-click fiat-to-crypto, mobile integration)
- Further DeFi expansions (multi-chain yields, NFT tie-ins)
- DAO activation & large-scale sponsorships

Phase 4: Global Scale & Ecosystem Maturity

- Government & NGO collaborations for social impact campaigns
- Hosted events & philanthropic drives worldwide
- Enhanced staking, tiered yield opportunities
- Full community ownership & continuous decentralized governance

TARGET AUDIENCE

Individual Fundraisers

People seeking fast, borderless donations for personal or local causes, bypassing traditional banking barriers.

Creators & Entrepreneurs

Visionaries raising capital for new products or ventures in a transparent, low-fee crowdfunding environment

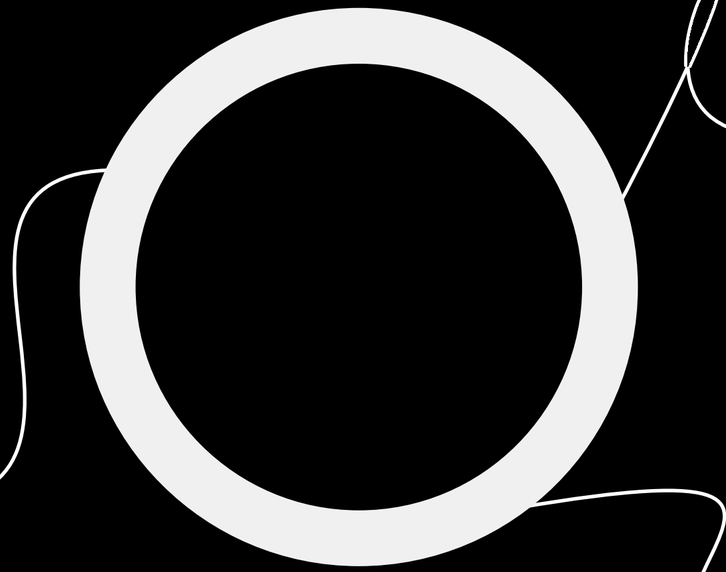

NGOs & Charitable Organizations

Nonprofits leveraging global reach and on-chain trust to scale their impact and expand donor support

Crypto Enthusiasts & Early Adopters

Tech-savvy users who champion token-based fundraising and help drive Web3 innovation through early adoption.

USE OF FUNDS

Development & Operations

Enhance functionalities, expand blockchain integrations, refine the user experience, scale infrastructure and operations, provide support.

Security & Audits

Conduct ongoing smart contract reviews , platform security checks and compliance checks to safeguard user funds and trust.

Marketing & Community Building

Drive awareness, forge brand collaborations, reward user participation and foster a vibrant community.

MARKETING STRATEGY

Localized Campaigns & Partnerships

Collaborate with regional charities, creators, and brands to validate real-world use cases and generate word-of-mouth momentum.

Influencer & Social Media Outreach

Partner with crypto influencers on Twitter, TikTok, and YouTube to enhance campaign visibility.

Paid Ads & Sponsored Promotions

Run targeted ads in crypto and mainstream media, and sponsor newsletters for broader reach.

Content & Thought Leadership

Publish how-to guides, videos, and use-case spotlights on Medium, LinkedIn, and relevant community hubs to build credibility and user trust.

Community-Centric Events

Host online and offline gatherings - ranging from spaces to meetups - to foster direct engagement and encourage new user signups.

GROWTH TACTICS

Referral & Ambassador Initiatives

Reward participants with token incentives or platform perks when they introduce new donors, sponsors, or project creators.

Token-Based Incentives & Quests

Offer limited-time multipliers, gamified tasks, and special reward tiers to maintain high engagement and user retention.

Cross-Chain Integration & Strategic Alliances

Expand to multiple blockchain ecosystems and partner with other DeFi/NFT platforms to widen user access and reduce friction.

DAO-Driven Expansion

Let token holders propose and vote on feature upgrades, marketing campaigns, and community events, ensuring organic advocacy and viral promotion.

Join us. Together, let’s redefine crowdfunding, empower communities globally, and spark the next wave of Web3 innovation.
